15:30 – 16:00 Mammo Muchie, member of Globelics scientific board / Prof. IERI-Tshwane University of Technology (S-A) / Aalborg University (DK)

*Challenges in building integrated African systems of innovation*

16:00 - 16:15 *General discussion*

Globelics Academy panel  
**2) BRICS countries –**  
**Recent developments and roles in the global innovation economy**  
- 7<sup>th</sup> Globelics Academy 2011 -  
15:00 –17:00, 23, Monday, May, 2011  
Pinni B building, room 1096, University of Tampere

---

*Globelics panel* discusses the recent developments of the emerging economies, the so called BRICS countries, (Brazil, Russia, India, China & South-Africa) and their changing but multiple roles in the global innovation economy. Panelists are leading experts in the field. Base for the discussion will be provided by Professor Cassiolato with very recent results of an international BRICS project. Along with the growing role of the BRICS countries, the themes of *inclusiveness and exclusiveness* of innovation activities and *increasing international* dimension of innovation systems are becoming more topical issues.

Chair:

Senior Researcher Mika Raunio, University of Tampere, Finland

Panelists:

Prof. Jose Cassiolato, Federal University of Rio de Janeiro, Brazil

Prof. Jorge Niosi, Université du Québec à Montréal, Canada

Senior Research Scientist Hannes Toivanen, VTT, Technical Research Centre of Finland

Prof. Liisa Välikangas, Aalto University School of Economics, Finland

Globelics Academy policy lecture  
**3) Innovation policy in Finland –  
Evolutionary view**

- 7<sup>th</sup> Globelics Academy 2011 -  
17:15 – 18:15, Tuesday, 24 May, 2011  
Pinni B building, room 1096, University of Tampere

---

Professor Markku Sotarauta (Dean, School of Management, UTA) gives a lecture about development of the Finnish innovation economy and policy

**GLOBELICS - The Global Network for Economics of Learning, Innovation, and Competence Building Systems**

Globelics network is an academic network set up by the key scholars behind the current innovation economy theorization including professors Bengt-Åke Lundvall (DK), Luc Soete (UNU-Merit/NL), Richard Nelson (USA), late Chris Freeman (UK) and many others ([www.globelics.org](http://www.globelics.org)). Network connects the scholars and students of the advanced and emerging economies with those of the developing countries. Globelics Academy Ph.D.-school is one of the functions of the Globelics network, organized by TaSTI /UTA in Finland 2008 and 2011. ([www.globelicsacademy.net](http://www.globelicsacademy.net))
